Opis produktu

The ASUS Vigour Backpack combines classic minimalist design with impressive versatility. Though lightweight, it offers ample room to accommodate up to a 16-inch laptop and features a magnetic front pocket and additional concealed pockets for daily essentials. Its water-repellent PU leather construction ensures exceptional durability and longevity. Embrace adventure with the ASUS Vigour Backpack.

Lightweight versatility

ASUS Vigour Backpack weighs less than 1 kg and includes a sturdy handle and specially designed non-slip foam shoulder strap for comfort. Its flat, wide base allows it to stand on its own, even when packed.

Modern edge design

Made of water-repellent and scratch-resistant PU leather, ASUS Vigour Backpack boasts a sleek minimalist design that will never go out of style.

Plentiful storage

Inside, theres more than enough room for all your belongings, including a sleeve for up to a 16-inch laptop as well as pockets for an umbrella and water bottle. Plus, there are multiple pockets to store everyday essentials, including concealed quick-access pockets at the rear and a magnetic front pocket.

High build quality

Built to last and featuring a durable, water-repellent exterior, ASUS Vigour Backpack has been subjected to strict military-grade in-house tests that meet international certification standards, including crocking, abrasion resistance, water repellence, pressure, and thermal shock resistance. Plus, it includes tough, water-resistant YKK zippers.

Designed with the environment in mind

The interior of ASUS Vigour Backpack employs PU leather and recycled polyethylene terephthalate (rPET) fabric made from recycled plastic bottles. The production of rPET requires fewer resources compared to other fibers and generates less CO emissions, making it more environmentally friendly. ASUS avoids the use of Polyvinyl Chloride (PVC) in its products due to its potential toxicity.
